

## TRUCK REGULATION VOTED BY HOUSE

Highway Protection Measure  
Wins: Roads Will be  
Classified, Plan.

**Madison.**—Advocates of highway protection and regulation of truck traffic won a hard fought victory in the assembly Wednesday when they carried to enactment and final passage a bill to classify highways and limit the weight of trucks.

Under the provisions of the new law, if the governor signs it, the roads of the state will be placed in classes A and B, depending on the type of surfacing. The state highway engineer is empowered to classify the highways and to provide regulations for motor truck traffic over them.

No truck weighing more than 12 tons will be permitted to travel on Wisconsin roads, while on class A highways, weight limits are placed at seven tons. Authority is given to keep trucks off roads during spring thaw and wet weather or any time the highway commission might designate.

The measure was strongly advocated by farmers' members, who declared heavy trucks have been tearing down roads faster than the taxpayers can build them up.

"It is entirely a question of whether we will build roads for the trucks or make the manufacturers build trucks to fit our roads," Assembly Edwards declared on the floor.

Truck manufacturers did not oppose the principle of regulating traffic, but fought the provisions providing for highway classification, declaring it impracticable and dangerous. In amendment offered by them, giving the highway officials power to close a road not more than 90 days a year, was killed.

## Janesville Man Heads Schools in Kelly, Iowa

**Elkhorn.**—The second annual meeting of the Duroc swine breeders of Rock, Walworth, Waukesha, Racine and Kenosha counties will be held at the D. B. LaBar farm, Delavan lake, Friday.

The program includes a ball game, address, judging contest and a picnic dinner. Visitors are expected to bring lunch baskets, but the association will furnish coffee, ice cream and lemonade without charge.

The following will take part in the program: Robert Evans, Chicago, secretary American Duroc association; R. S. Stone, Janesville, secretary Wisconsin Duroc association; and Mr. Gordon, Des Moines, editor of The Duroc Bulletin.

## Y.W.C.A. Fast Growing Popular

Activities of the Girl Reserves of the Y. W. C. A. will start this afternoon next week with the completion of the initiation of all the associations. Hikes and picnics have already been taken by several of the Reserves and summer activities will soon begin. Initiation for the Garfield girls was held Wednesday afternoon, and at 7 p. m. the girls interested in tennis met and first instruction was given. Tuesday, a initiation of the Adams girls has been scheduled. In the evening, the older girls will receive baseball instruction.

The largest of the Girl Reserves, the Jefferson, will have initiation at 10 a. m. Friday. The ceremonies are most impressive. The evening class for the older girls at 7 o'clock will be taken up with a study of camp craft. The Douglas girls will be initiated at 2 p. m. Saturday.

Mrs. D. W. Holmes has donated the use of her tennis courts for the girls. On Mondays, Wednesdays and Saturdays, it may be used by them all day and it will be open the other days from 12 to 12 in the morning and from 4 to 6 in the afternoon.

The club-rooms in the third floor of the Gazette building are being used more with school, drawing to a close. Working girls spend much of their time there.

## PUBLIC BIBLE SCHOOL WILL OPEN MONDAY; CONTINUES 2 WEEKS

Enrollment in the two weeks daily vacation Bible school will be from 8:30 to 9 a. m. Monday at the full church. It was announced by Supt. F. O. Holt. The tuition is \$1 per family, the school being under the auspices of the Rock County Sunday School association with all children welcome. Some pastors are sending out special word to parents while others are calling meetings this week to promote enrollment.

The school will open next Monday morning immediately following enrollment. Sessions will be held in the Methodist and Baptist churches. It is planned to conduct the two week course with a picnic.

The Bible study will center about the life of Jesus and the first hour of the morning will be spent in the study of the remaining part of the morning will be given to memory work of Bible passages, hymns, mission study and dramatization of Bible stories. There will also be an assembly chapel period. The school will meet six days a week from 9 to 12 o'clock.

## 15-YEAR OLD BOY TOPS CATTLE MARKET

**Chicago.**—Although George W. Lane, Newburg, Iowa, was the owner of the 25 Angus steers and heifers that topped Monday's cattle market at \$9.15, he had practically nothing to do with the selling. It was his 15-year-old son, George H., taking on that responsibility. While attending high school and doing after school chores, George raised and fed these cattle from 350-lb calves to 750-lb yearlings.

He put them on part oats and chopped corn, bringing in a little oil meal later; after two months of this the cattle were in full flesh of shelled corn, clover hay and a pound of oil meal a day until they were brought to market.

Mr. Lane and his son farm some land, but are mostly interested in the feeding business, always having a load or two in the feed lot. They have another load of Angus calves that are ready for feed and expect to make another top for Chicago next spring.

## Women Invited to Station Day at U.W., June 28

Many Rock county women will attend the station day at the University of Wisconsin in Madison on June 28. An interesting program has been outlined for the women.

Southern Wisconsin farmers are planning an automobile tour for the station day program, which is intended to show farmers the value of the agriculture station and how it may be used to a practical advantage.

Mrs. Nellie McJannet Jones in charge of the home economics demonstrations, will entertain the housewives.

Open "Practice Cottage." Everything from new recipes in cooking and the newest cooking apparatus to the proper drying of dressings will be demonstrated. A feature of the morning's program for the women will be the opening of the "practice cottage" to the visitors. This is a real home used the year around by home economics students.

A week is spent in the cottage by every home economics student in her junior year at school, says Miss Dorothy Roberts, one of the instructors in charge of the cottage. "Here she learns to apply the principles of housework which she has been studying in school. She must do her own buying, cooking, sewing, cleaning, and learn to do them economically. A report from each group of girls at the end of their week shows how well they have applied their knowledge."

The cottage contains many labor-saving devices of great interest to every farm woman. An electric washer, mangle for ironing, a bread mixer, an electric iron, and a pressure cooker are some of these devices to be seen at the cottage. The arrangement of the furniture to best advantage and in the most artistic way is another feature of the "model" home. The cottage is a lesson in furnishing a house in as inexpensive and yet as effective a manner as possible.

After a picnic lunch on the shores of Lake Mendota with their families, the women will be entertained at the Hill farm. A picnic called "A Milk Dream" will be staged on the lawn under the direction of "Aunt Nellie." Forty-five school children will assist in this part of the entertainment.

## REFUSE 4 PAPERS ON WAR REASONS

Aliens Who Claimed Exemptions Denied U. S. Rights—55 Admitted.

Four aliens were refused citizenship during naturalization hearings Wednesday before Judge George Grimm in Rock county circuit court on the grounds that they had not been in the United States for the required period of five years. They are William R. Pfeiffer, 1220 North Bluff street, Janesville; Fred Burman, 2101 Broadway, Carlisle, Pa.; and Benjamin Sunny, 1077 Lincoln avenue, civil engineer, Deloit.

The case of Frederick Wilhelm Ringhand, town of Union, was held pending further investigation on his status in the draft. The government objected on the claim that records showed he claimed exemption, which the applicant denied. The application of Joseph Katz was denied on the claim of lack of character.

A total of 55 were granted citizenship following the examination. ## EVANSVILLE MAN HAS TOUGH TIME IN DIVORCE SUIT

A. V. Lyle, Evansville, is having considerable of a time in a divorce suit in Geneva, Ill., where the case is pending. Mr. Lyle lived in Janesville several years ago, having operated a music store here.

It is costing him about \$12 a minute to get the case out of the court, and he has hired 27 attorneys to appear for him in the numerous court proceedings. Lyle evidently was disappointed over the showing of his legal talent and appeared during a hearing before Judge Clift this week.

The Evansville man's tale of woe covers three years, since it is claimed his good looking young wife deserted him in Geneva. She is alleged to have taken the children, the furniture, carpets and everything that was not nailed down—except the dog—and moved to Aurora, Ill.

She filed a bill for divorce in Kane county during December, 1917, charging cruelty. Lyle told the Illinois court that he had spent 15 months in Aurora, and to no purpose, trying to get the case out of the court. At that time the court had permitted him to see the children but twice and only for an hour each time.

For these limited visits with his children and wife, Lyle has paid \$12 a minute in cold, hard cash.

The case is still pending in the Aurora courts. The Evansville man refuses to hire an attorney or have one appointed for him.

"My wife is young and good looking, and for this reason a bunch of the home and garden are taking her side and delaying the suit," Lyle is reported to have said.

## \$50,000 RANGE IN CITY SEWER BIDS

Lowest Bid is \$96,372—Investigate Before Awarding Contract.

Cost of the five-mile section of main outlet sewer to be built along Eastern avenue this year will be around \$106,000, it became known Thursday after the completion and tabulation of the 10 bids opened by the board of public works, Wednesday afternoon.

Following are the three lowest bids which are to be considered and investigated by the board before the contract is awarded.

Meerswa Construction company, Chicago, \$95,372; Peder Frandsen, Racine, \$105,915; Knowels Fehr, Chicago, \$106,210.

The bid of the Meerswa company is the lowest because it specifies only plain concrete while the other two call for reinforced concrete pipe. The Meerswa bid however will receive careful consideration along with the other two.

**\$50,000 Difference in Bids.**

There was a difference of more than \$50,000 between the highest and lowest bid, the range being all the way from \$95,372 to \$147,017. When plans were first considered, Mr. Kern estimated the cost at around \$120,000 but the decline in labor and material costs since that time enabled the city to get lower bids.

J. P. Cullen & Son, Janesville, were ranked fifth in the bidding.

Following is a list of the other seven contractors, together with their bids as given out Thursday by Mr. Kern:

George Pontrelli, Chicago, \$118,707; J. P. Cullen & Son, Janesville, \$117,264; Menkals Construction Co., Mankato, Minn., \$123,510; H. D. Hallett, Aurora, Ill., \$125,222; Johnson & Thomson, Racine, \$127,367; E. R. Harding Co., Racine, \$140,511; Foley & Jilly Co., Chicago, \$147,017.

Most of the sewer is to be of 48 and 54 inches diameter, extending from Eastern and Beloit avenues intersection to a point several hundred feet below the big railroad bridge in Monterey. It is the first step toward providing a sewer main for the southern portion of the city and is one of the biggest projects of its kind ever attempted by the city. Work is to start July 1.

## Life for Frank and Al Series of Disasters

**Monroe—Life is just one blamed** charge after another—so think Frank Monahan and Albert W. Boss, town of Washington, when they were arrested by C. E. Bennett, state sheriff, A. E. Mitchell.

Boss drove towards Bennett as he was crossing the street, and he hit him down. Bennett called Mitchell and Boss and Monahan were arrested. Boss was fined \$10 and costs for driving without a car license and fined \$50 and costs for driving a car while intoxicated.

Boss and Monahan were then released on bonds of \$500 each, for appearance in court June 20 on a charge of transporting liquor. A just of moonshine having been found on the bottom of the car.

## SEEK GRAVE OF JOHN CALVIN, REFORMER

**Geneva.**—The spot where John Calvin, protestant reformer, is buried, is being sought by the authorities on information furnished by a man who says he is a descendant of Calvin.

The location of the grave has been handed down through the Calvin family under pledge of secrecy, according to the man, who is 71 years of age, and as he is without issue he believed it his duty to divulge the location to his ecclesiastical consistory at Geneva.

Tradition has it that John Calvin, who died May 27, 1564, was buried in the common cemetery in Geneva called "Plain-Palais" but the exact spot has not been identified.

# PACIFIC HARBORS GROW IMPORTANT

With Increase in Oriental Trade and Far East Affairs.

By DAVID LAWRENCE.  
Copyright 1921, by Janesville Gazette.  
Washington.—The government has intervened effectively in what might have been a serious situation for the California fruit growers and at the same time would have established a principle of vital importance to those American shippers everywhere who have found it cheaper to transport their goods by water than by rail.

Recently, the railroads have been petitioned to reduce their freight rates on western fruits. President Harding himself has lent his influence to the movement for lower rates for California producers. Now the railroads have the western fruit growers with a proposal to agree not to ship by water through the Panama canal, a lower freight rate will be given to the shippers.

This move has been called a "hold-up" by the California fruit growers, who enlisted the help of the Harding administration. The matter is being discussed at the cabinet meeting, and while the cabinet most likely will not prevent the contract from being signed, it was evident that the moral influence of the administration could be made to weigh heavily with the railroads.

AS TO CALIFORNIA  
Word comes today from one of the railroads that they will not insist upon the clause of the contract requiring the California shippers to give up water transportation. Should all the roads take this view, the matter will be quickly settled. But it is significant that the principle involved in the transaction caught the eye of the government and was carefully studied with a view to preventing a recurrence of such contracts, as they involve land and water transportation.

Water Transportation  
The suggestion has been made by administration officials that while the government itself could not locally prevent the making of such an agreement, the water transportation commission could bring action against the railroads under the federal trade commission act which governs unfair trade practices in competition.

The railroads have been charging about \$1.00 a box for shipping fruit to the Atlantic seaboard, while the same box can be shipped by water around the canal at a cost of \$1.00. The water transportation is not so rapid and is advantageous only for points near the Atlantic seaboard, for the extra freight for carrying the products inland after they have been unloaded at Atlantic points is an additional factor that must always be taken into account.

Handling Fruit Trade  
The railroads have been able to maneuver their rates to handle most of the fruit trade, but the present freight cost, according to the California growers, is actually prohibitive and means their ruin unless relief can be granted.

The latest proposal of the railroads is that a rate of \$1.70 will be given provided that the fruit growers agree not to ship by water. Elimination of the latter provision is insisted upon by the Harding administration in its informal negotiations with the railroads, and the prospect today is that the railroads will not insist upon it but will grant the \$1.70 rate irrespective of the amount shipped by water.

Helping Industries  
This case is another conspicuous instance of the part the Harding administration is endeavoring to play in assisting the national industries. The government's influence with the railroads is still a powerful one, even though the roads are in the hands of their private owners. The fact that the government has a single cabinet member yet at which the question of transportation hasn't occupied a considerable part of the time, is a cause for wonder that it is so bound to be a subject of constant concern to the administration. The intervention of the government in the California case is not merely a question of the welfare of the western members of congress for lower freight rates, but is part and parcel of the general influence wielded by the administration of the country with the Harding administration.

# County Nurse Declares Rock County Children Don't Drink Enough Milk

Rock county children do not drink enough milk!  
This assertion is made by Miss Anna Luchscher, superintending Rock county nurse, who has completed a thorough survey of the county school system with the view of improving health conditions.

Results are being obtained from the surveys, as milk consumption has been materially increased but not enough to satisfy the desires of the county nurse.  
The three recommendations for health improvement in the rural districts and the city as well, among students is the drinking of at least three glasses of good milk a day, the daily brushing of the teeth, and sleeping with the windows open.  
In all 156 one room country schools were examined. A total of 2,655 children were questioned on their diet and health. Two-thirds, or 1570 children, drink some milk. Drink More Milk.  
"On the other hand one third of the children drink tea and coffee, which have absolutely no place in the diet of a growing child," says the county nurse. "A glass of milk should be consumed by every child at each meal. Milk which is clean and wholesome and coming from good cows should take the place of every other drink with children."

# Immediate Regulation of Downtown Traffic Is Urged by Citizens

An adequate parking system and real traffic regulation are recommended by Janesville citizens as the immediate attention of the new board of directors of the Chamber of Commerce upon their taking office this week.  
"Creation of a better feeling toward the Chamber would seem to be the first step necessary," declared Dr. C. P. Clark, Hayes block. "There has been too much selfishness shown in some of the matters which the Chamber has handled in the past. More worth while community work should be accomplished such as procuring some traffic regulations."  
"Care should not be permitted to turn around at the corner of Main and Milwaukee streets. While I would not stop parking altogether in either of these main thoroughfares, it is necessary to make some method back of which cars must be parked."

Park Proposal Favored  
Two men interviewed were in favor of some immediate action in getting a large park for the city. Peter A. Myers declared that such a park is essential now. He recommended the purchase of 160 acres on the east side of Rock river as against the contemplated site at Riverside park as more economical. Joseph M. Connors, manager of the Ziegler Clothing company, while favoring the purchase of Riverside park, urged that the city should have a large park which have been asked by the owners.  
Traffic Regulation  
Traffic regulation first and a real park second are the suggestions of Rev. Henry Willmann on what the new board of directors of the Chamber of Commerce should turn their attention to first. Do away with slanting parking on the River valley and most congested parts of Main and Milwaukee streets, he urged and confine parking in that section to parallel with the curb and do not permit any car to remain for more than five minutes at a stretch during the business hours. He declared a park is essential for proper recreational facilities for young and old.

# BUILDING PRICES BACK TO NORMAL

Contractor Willis Says Lumber is at Lowest Figure—Rush Many Jobs.

The bottom price in building materials and labor has been reached in the opinion of T. S. Willis, of the contracting firm of Willis and Deason of this city which is several larger buildings under construction in the city.  
"I do not anticipate a greater reduction in present prices within the next year as I believe the bottom of the market has been reached and especially in lumber, which is at the present time selling below the cost of production. If there is anything in price of lumber it will be of an upward trend," said Mr. Willis.

Lumber in England is selling at a price of three years ago; price of cement is about the bottom price of about 35 percent cheaper than last year. Chicago brick is \$12.50 per thousand compared with \$25 last year. Almost everything connected with building shows a decrease of between 25 and 35 per cent in the last year.

Demand Better Houses.  
Mr. Willis stated that people are demanding better houses than a few years ago, with more improvements and are getting more for the amount of money invested because of the labor-saving machinery now being used. Labor, according to Mr. Willis, is at the lowest point in the history of the building industry. Carpenters in Janesville being paid 75 cents an hour generally with a top price of 85; masons are working for \$1 per hour, a reduction of 25 cents from the rate being paid from 40 to 50 cents, he said.

A record for quick building was established by Willis and Deason in rushing completion of the 26 room Hotel Mincer at the Harvard club, on Lake Geneva, burned down less than a month ago. It will be completed Thursday night after 25 days actual work with the crew of 25 carpenters and 10 laborers on the job. The dining room has been used for several days. The building cost \$29,000.

Plank Genoa Bank.  
The Citizens State bank at Genoa Junction will move into its new quarters, July 15. The bank is being erected by the Janesville firm, costing approximately \$28,000. The company is also erecting a building for the Hudson State bank at Hudson, Wis., for \$15,000 which will be completed August 1. The company is erecting an \$8,000 school house at Otter Creek.

Several thousand dollars worth of improvements are being made on the old A. A. Diamond garage next to Strimling and Deason. It will be used by A. Strimling as a part of his garage which adjoins it. A concrete floor and possibly a new front and other improvements are being made.

Work on Five Homes.  
The office building of the Janesville Electric company at River and Milwaukee streets is undergoing repair, interior and exterior and is being remodeled into a modern building by Willis and Deason.  
Five homes are being completed for Janesville people at a cost of from \$4,500 to \$6,500.

Heimford wheeled to face Tom Petty. His eyes behind his big glasses sparkled angrily.

"You get up to the house, Pearl Holders," cried Tom. "I'll show this fellow what's what. You can see what he wants, all right. He thinks Uncle Jonah is going to will you all his money, and he'd marry you for it."

Heimford flashed a sudden glance at the cowering girl.

"Yes, Miss Pearl," he said, "do go into the house. I am sorry that I cannot see you, but I am sure that another such accident will never happen."

## The Story of Our States

By JONATHAN BRACE

XXXIV.—KANSAS

Way back in 1841, Colorado, the Spanish explorer, is reported to have penetrated to Kansas in search of a mythical wealth, the "Seven Cities of Gold." It was not again visited, however, by white men until nearly 175 years later, when the French in Louisiana sent out an expedition to investigate the remote portions of what was then their territory. Most of the present state of Kansas was a part of the Louisiana purchase and so passed from French hands to the United States in 1803. A small additional part was later added in 1850, being ceded by Texas.

The Lewis and Clark party traversed this region in 1804 and Lieut. Pike passed through Kansas two years later.

Kansas history really becomes interesting in the middle of the century, when the slavery agitation gave it the name of "Bleeding Kansas." It had been an unorganized territory since 1821, at which time it had been considered a part of the territory of Missouri. According to the Missouri compromise, if Kansas became a state it could not be a slavery state. This opposition of the South was so strong the Kansas-Nebraska bill was passed in 1854, making this vital question optional with the inhabitants in each proposed state. With this law in force, the two factions actively started colonizing. The pro-slavery element from the slave states of Arkansas and Missouri immediately founded Leavenworth. The Massachusetts Emigrant Aid society sent out anti-slavery settlers, who founded Free State. Proslavery and antislavery settlers, Poplar and other towns. Conflict between these two parties broke out at once, and it was only put down by the intervention of federal troops. The northern element came in such numbers that they soon were in the majority and in 1861 an anti-slavery constitution was adopted, so Kansas was admitted to the Union in that year.

The political dispute over Kansas was the cause of the formation of the present republican party.

## Says His Prescription Has Powerful Influence Over Rheumatism

Mr. James H. Allen suffered for years with rheumatism. At times this terrible disease left him helpless and unable to work.

After many years of ceaseless study, that no one can be free from rheumatism until the accumulated poisons are eliminated from the blood, he has discovered a method of curing this disease by dissolving the poisons and muscles and expelled from the body.

His idea in mind he consulted physicians, made experiments and finally compounded a prescription that quickly and completely banished every sign and symptom of rheumatism from his system.

He freely gave his discovery to others who took it with what might be called marvelous success. After years of trying he decided to tell his discovery through the newspapers. People's Drug Co. has been appointed agent for Allen in this vicinity with the understanding that he will freely return the purchase money on the first two bottles to all who state they received no benefit. ## Kidney and Bladder Troubles HAVE TO GO

Clogged Up Kidney Deposits Are Dissolved and the Toxins (Poisons) Completely Driven Out. Druggists Told to Guarantee It in Every Instance.

"Your very life," says Dr. Carey, "depends upon the perfect functioning and health of your kidneys. So whatever you do, don't neglect them."

Dr. Carey's famous prescription No. 777 known as Marshroot is not recommended for everything, but we cannot too strongly urge its use. It does not suffer from annoying bladder troubles, frequent passing of water at night and day, with smarting or irritating urine, or from the tendency to Bright's Disease, Diabetes or Gravel, for kidney disease in its worst form it is standing upon you.

Don't wait until tomorrow to begin the use of this wonderful prescription. If you have any of the above symptoms, Kidney and Bladder troubles don't wear away. They will grow upon you slowly, stealthily and with untiring certainty.

Never mind the failure of the past. If you even suspect that you are subject to Kidney Disease, don't lose a single day for People's Drug Co. and every good druggist have been authorized to return the purchase money on the first two bottles to all who state they have received no benefit.

## Heart and Home Problems

BY ELIZABETH THOMPSON

Letters May be Addressed to Mrs. Thompson, in Care of the Gazette.

Dear Mrs. Thompson: I am a young man who lives in a little town. One day I passed him and for some reason I did not speak to him. At first I knew I was wrong and I felt sorry and wished to be friendly again, but the man has left town.

"Would it be all right to send him a card to show I did not mean to be unfriendly. I would love to do this, but I do not wish to give the impression I am running after him. Should I give my address or simply sign my name? He doesn't know my address. I would like to correspond."

JOSEPH.

People have to take their punishment for foolish mistakes. To ignore a friend was unpardonable and without excuse. Let the matter drop. If you send a card the young man will probably think you are running after him. In the future profit by this lesson and speak to your friends. The young man was not deeply interested in you or he would have learned your address.

"Anxious E. E.": Indeed you are too young to marry the woman. You may think you are deeply in love, but yours is a case of infatuation.

## Dinner Stories

A small boy was taken to see the new baby, whom he eyed very critically.

"Why, he's got no hair, father," was his first remark.

The fact was admitted.

"And he's got no teeth, father," was the next comment.

The circumstances could not be denied.

"I tell you what, father," was the final observation, "you've been swindled; he's an old 'un!"

In the casual camp at St. Alban on out of the colored Yanks was used exclusively in the pick and shovel brigade. Hence the following conversation at mess:

"What you want all day, eatin' bean soup wid a fork?"

"Bile boy, Ah hates mah shovel so bad Ah done throwed away mah spoon."

Her chief object was to make a fool of the latest fashionable philosopher. "Tell me," she cooed, "don't you find it a little difficult sometimes to write all those hard things about women?"

The philosopher regarded her with impartial eyes. "There is a certain difficulty," he replied; "but it is purely one of selection."

"Father," said a little boy thoughtfully, as he watched his parent collect his notes and arrange the slides for a parish entertainment, "why is it that when you spend your holiday in the Holy Land you always give a lantern lecture on it? You never do when you have been to Paris!"

## What Shall I Do?

Answered by VIRGINIA PAGE

"Dear Miss Page: I am a girl 15 years of age and read your column every day, and I have only seen one question this year about a girl's question. I am a girl and I have a question about Mother's Day. All the questions are about girls helping their mothers. Why is it nowadays that all the girls and school girls, too, only think of going out with fellows? Mother's Helper."

Good for you! If all the girls were like you and all the mothers like you!

### A DAY'S RECIPES

Strawberry Roll—Sift into bowl two cups of flour, and add one teaspoon of sugar, three-quarters teaspoon salt and four teaspoons baking powder. Rub in with the finger tips three tablespoons shortening, and when the mixture resembles cornmeal wet to a soft dough, roll out lightly into a thin oblong sheet and cover with hulled strawberries. Sprinkle with sugar, add a bit of grated nutmeg, and dot with bits of sugar. Roll up like a jelly roll, lay in a greased pan, and after brushing over with milk bake in a very hot oven. Serve with a hard sauce to which has been added a few spoons of crushed strawberries.

Chicken a la King—Melt four tablespoons of chicken fat and in it cook three tablespoons of minced green

pepper until soft; then stir in three tablespoons of flour, one tablespoon of minced green pepper, three-quarters teaspoon of salt, and add very gradually two cups of thin cream or top of the milk. Stir constantly until the sauce thickens and boils and add two and one-half cups chicken (diced) and a quarter of a pound of sautéed mushrooms. Stand over hot water until the chicken and mushrooms are heated through.

### SUGGESTIONS

To Clean White Kid Gloves—Place them upon the hands, have ready two vessels partly filled with gasoline, one for first cleaning, the other for rinsing. Proceed as if washing the hands, using a small hand brush and ivory soap. When quite clean wipe with a clean towel, while still on the hands. Remove and hang in the sun and air.

### HOUSECLEANING TRICKS

Soap, naphtha preferred—For soaps, boards, heavy kettles. White laundry soap—For highgrade woodwork, glasses and china. Scouring compound—For porcelain and windows. Whiting—For cleaning enameled paint and nickel.

## STATE MAY BECOME CORN CROP LEADER

Development of Northern Seed  
May Put Wisconsin in  
Famous Corn Belt.

Wisconsin deserves a place in the famous corn belt states since thoroughbred seed has been developed which is suitable for northern farms where the growing season is short. If as much corn were raised in the central and northern section as in the southern part, Wisconsin would be one of the leading corn producing states in America.

In 1919 Wisconsin planted 1,150,782 acres in corn and raised 44,547,398 bushels.

There is a general tendency in most states to decrease corn yield and increase on wheat or small grains. This is noted in the data on acreage and production of corn, wheat and oats as compiled by the department of commerce.

Iowa in Lead.

The production of corn in the United States during 1919 was 3,355,592,172 bushels which is less than in 1909. The production chart shows a decrease of 196,556,457 bushels or 7.7 percent. The average yield in 1919 was 29 bushels per acre as against 35.9 in 1909.

Iowa led corn production in 1919 with Illinois second.

Wheat on Increase.

The total acreage in wheat harvested in 1919 was 74,166,967 acres as compared to 41,202,322 in 1909, or an increase of 78,964,645 acres, an increase of 65.3 percent. The production in 1919 was 951,331,017 bushels or 13 bushels to the acre while in 1909 the average was 15.4 bushels to the acre.

The per capita production of wheat two years ago amounted to nine bushels.

Wisconsin planted 129,745 bushels of wheat in 1919 and harvested 1,233,441 bushels.

In oats, Wisconsin planted 2,511,919 acres in 1919 and harvested 55,256,235 bushels. A slight decrease over that planted in 1909 according to the government figures.

The average yield in oats in the United States in 1919 was 25.5 bushels to an acre. Wisconsin was among the first five states to report more than 50,000,000 bushels of oats.

### BOY ON BICYCLE IS BITTEN BY DOG

James Houtney, 12, son of Mrs. A. Houtney, residing at 1210 W. Washington street, was bitten by a dog while riding his bicycle on Western avenue. He was given medical attention.

While swimming in the river back of the State School for the Blind, Tuesday, James Houtney, eighth grade pupil of the Lincoln school, suffered a serious cut in his right shoulder when he was hit by a clam-shell thrown by a school mate. The accident occurred during the Lincoln-Douglas school picnic. A physician dressed the boy's wound.

### Janesville Man on Program at Delavan

Willard W. Hield, son of N. E. Hield, 623 North Washington street, graduates this week from the Iowa state agricultural college at Ames, Iowa. He is the first of the Janesville high school in 1914 in the first class to graduate in the agricultural course. He is to hold the position of superintendent of schools at Kelly, Ia.

## SAY BUY COAL NOW TO AVERT SHORTAGE

Dealers Hold Little Hope of  
Lower Prices—See Rail  
Strike July 1.

Get your coal in now! Such is the slogan advanced by Janesville coal dealers in a round of interviews Wednesday. By doing so, the public is informed that it will be certain of having its supply on hand for next winter. By waiting with hopes of a price reduction, local dealers state that there will be a recurrence of conditions of last year with a rush for fuel in the few weeks before cold weather after September 1, which will cause a demand far in excess of the possibility of supply.

All coal merchants were unanimous in stating that there will be no shortage if a course is followed by the ultimate consumer. The mines are working far below normal at present, it is stated, because the public is not purchasing.

Drop is Doubtful.  
Present prices are quoted as follows:  
Hard (all sizes) \$15.10 to \$15.35.  
Coke \$15.50.  
Franklin County (soft) \$10.00.

Whether these prices will prevail is a matter which the dealers declare they do not know. They declare that the only chance of lower prices is through lower freight rates. On the other hand, they announced that mine prices are advancing 10 cents a month and that on July 1 the new Pennsylvania state tax of from 20 to 30 cents per ton will go into effect.

As to lower freight rates, the general opinion here is that such is almost out of the question so long as the Erie-Cummins railroad net remains in force. In many cases, it is declared, freight is as much as the mine cost of the coal and should be reduced, what drop in freight rates there may come would be so slight as to make small difference in the cost of coal laid down here.

Rail Men to Strike?  
Possibility of a strike upon the railroads July 1 is being given much thought by coal dealers here as well as in other communities. It is pointed out. Railroad employees are believed to be fretting under the reductions in wages ordered by the United States Rail Labor Board and rather than accept them will enter a nation-wide strike. Railroad men here are reticent in talking of such a possibility but the general impression gained from them is that there will be no acceptance of lower wages without the unions putting up a strong fight.

In the meantime, mine owners and coal companies are begging the dealers to take coal, according to Janesville fuel handlers, so they can keep their tonnage output up and be ready for the needs of next winter. The reply of the coal men here is

that they cannot buy faster than they can sell.

Coal Going Elsewhere.  
According to press dispatches some sections of the country are commencing to receive a new supply of coal. Reports that 2,000,000 tons have been received there and at Duluth since the opening of navigation. This is about four times as much as in the same period last year.

Cooperation with coal handlers in getting their fuel from the mines to Janesville is promised by the newly organized traffic bureau of the local Chamber of Commerce. It was stated at the Chamber Wednesday morning that the best possible freight rates would be procured and every effort made to facilitate shipment just as soon as the public commences buying.

## NOTABLE WEDDING AT ORFORDVILLE

(By Gazette Correspondent.)  
Orfordville, Tuesday, June 15.—At 8:30 at the Lutheran church occurred the marriage of Miss Pearl Kaatrud to Rev. Melvin Kaatrud, both of Orfordville, the ceremony being performed by Dr. Chamber. Wednesday morning the best possible freight rates would be procured and every effort made to facilitate shipment just as soon as the public commences buying.

The bride was accompanied by her bridesmaids, Misses Clara Trulsen and Mabel Kaatrud, and her bridesmaids, and Rev. Roy Harrisville, Chicago, and Rev. Walter S. Hanson, Chicago, Wis., who were the officiating ministers. The bride's father, Mr. K. Kaatrud, is a graduate of Milton college and is an accomplished musician. The groom is the son of Mr. and Mrs. P. K. Kaatrud and was also born in Orfordville. After the ceremony a reception was held at the home of the bride's parents, refreshments being served to about 150 invited guests. After a short outing at Lake Koshkonong, the bride and groom left for Elgin, Ill., where the groom has received a call to serve as pastor of the Lutheran church.

Nels Thorsen died at Mercy hospital Tuesday night, where he was taken in order and was born here. Six weeks in hospital and a reception was held at the home of the bride's parents, refreshments being served to about 150 invited guests. After a short outing at Lake Koshkonong, the bride and groom left for Elgin, Ill., where the groom has received a call to serve as pastor of the Lutheran church.

Mr. and Mrs. Fred Cole and daughter, Dorothy, will spend the next few weeks in camp on Sugar river, south of Newark. Mr. Cole is attempting to raise business with pleasure, and while he rebuilds a large section of the Orfordville telephone system, there they will occupy the tents rather than drive back and forth to Orfordville.

At a meeting of the milk producers Tuesday evening, O. A. Peterson was elected delegate and Dr. G. W. Delling, alternate to go to Chicago Friday to attend a meeting of the Marketing association, when the "two price" proposition will be decided.

## Again Heads Ministerial Body of Swedish Church

Rockford.—The Rev. G. A. Young, Beechford, S. D., was re-elected president of the Swedish Evangelical Free Church ministerial association Wednesday.

## FARMERS TO VOTE ON NAT'L ISSUES

Questionnaire on 16 Points Going  
to All Farm Bureau  
Members in U. S.

Voices on vital farm problems of national importance are to be taken in Rock county within the next two weeks as a part of a national poll by the American Farm Bureau Federation.

The results of the poll are to be used by the national bureau officers in seeking favorable farm legislation in Congress. Votes are to be taken on questions and answers tabulated by County Agent R. T. Glasco and Secretary C. E. Culver.

National Questions.  
The list of questions is as follows:  
1. Do you favor commodity financing based on bonded warehouse receipts?  
2. Do you favor live stock financing based on an adequate pledge of animals and feed?  
3. Do you favor the development of a personal rural credit system based on proper safe-guards?  
4. Do you request that authority be granted the federal reserve board to classify rediscounts as to give priority to loans for basic production of all kinds?  
5. Do you favor increasing the limit of Federal land bank mortgages loans from \$10,000 to \$25,000?  
6. Do you favor asking Congress to submit to the states a constitutional amendment prohibiting the issuance of tax free securities?  
7. Do you favor continuing the excess profits tax?  
8. Are you opposed to the enactment of a general sales tax?  
9. Will you be able to move a materially larger amount of agricultural products if the American Farm Bureau secures an adequate reduction in freight rates?  
10. Do you favor the building of farm to market roads prior to the construction of trans-continental highways?  
11. Do you favor the Great Lakes-St. Lawrence waterway?  
12. Do you favor other waterway development for transportation, reclamation and power at this time?  
13. Do you favor putting the packers under regulation by the government and the vesting of such regulation in the department of agriculture?  
14. Do you favor legislation making illegal the practice of short selling in agriculture products?  
15. Do you favor the truth in labeling legislation?  
16. Do you favor legislation enabling co-operative marketing?

The annual election of officers for the township of Clinton will be held in the Clinton city hall on Thursday night. The meeting is called by H. O. Nalesta, town chairman.

George McKorrew, president of the Wisconsin Farm Bureau, is expected to speak at a meeting at the farm of C. O. Onsgard, town of Plymouth, June 21.

## OPTIMISM HIGHLY CONTAGIOUS SAYS JANESVILLE WOMAN

"There is nothing so contagious as optimism. But one cannot be optimistic without faith," writes Mrs. John R. Horn, former Janesville resident, now residing at 408 Hugh street, Tampa, Fla.

"The times will be just what the majority of people make them. Therefore it behooves each of us to be optimistic, to be sanely optimistic, with faith backing up our words. Between courages and fool-hardiness, between the hopes of the optimistic and the dreams of the visionary, there is a great gulf."

Exceptional praise was given by Mrs. Horn in her letter to the Gazette for the activity of Janesville and Rock county. The county's greatness was pointed out by the Florida woman in its agriculture production and industrial output.

"The arrival of the Janesville Gazette each noon is one of the most pleasant occurrences of the day," states Mrs. Horn. "The Gazette is an unusual and mighty good newspaper. I always know it, but this last year, since being away from home, I have realized more fully than ever before, what a high grade of excellence the Janesville paper has obtained. I need make no apologies to any city paper."

## MANY 'IDLE VESSELS' AT HEAD OF LAKES

Duluth.—The largest fleet of 12½ ships ever harbored at the head of the lakes is anchored at Duluth and Superior docks, according to harbor officials. Twenty-six steamships and barges are tied up here. Failure of the seasonal revival of ore shipments to take place is given as the reason for the slump. Many vessels bringing coal from lower lake ports, which ordinarily carry ore on the return trip, are forced to leave "light."

## Teamster's Life Saved

Writes Letter That is Worth Reading Very Carefully.

Peterson Olmstead Co., Inc., Buffalo, N. Y.: I was afflicted with a very severe case of my leg for years. I am a teamster, but without success. I tried doctors, but they failed to cure me. I could not sleep for many nights from pain. Doctors said I could not live for more than two years. Finally, Peterson's Ointment was recommended to me and by its use the sore was entirely healed. Truly yours, William Hase, West Park, Ohio, March 22, 1915, care P. G. Reitz, Box 189.

Peterson says: "I am proud of the above letter and have hundreds of others that tell of wonderful cures of Peterson's Ointment. It is 35 cents a large box at all druggists, and there isn't a broad-minded druggist in America that won't praise it. Mail orders filled by Peterson Olmstead Co., Inc., Buffalo, N. Y."

## ULSTER VETO HELD CECIL PLAN FAULT

Suggestion Fails to Interest  
Public Opinion on Emerald Isle.

Dublin.—No section of Irish public opinion has endorsed Lord Hugh Cecil's latest suggestion of a settlement of the Irish question. The Cecil plan included the establishment of two small parliaments, one at Belfast and the other at Dublin, with an additional "House of Estates" of 100 members. Ireland was to have "complete fiscal autonomy" and an army of its own, but no navy.

The nearest approach to approval comes from the Freeman's Journal, which says that Lord Hugh "has got the root of the Irish problem in his grasp, but he is afraid to go boldly to the solution without hedging conditions." The hedging condition is held to be the necessity for Ulster to maintain the maintenance of "the Ulster Veto" which "can always be relied upon to wreck any plan that would satisfy four-fifths of the people."

The real crux remains in Ulster. The majority in the Northeast corner is attached to the English connection. The picture of Queen Victoria, occupies, on the walls of the houses of Belfast artisans or Antrim farmers, the place of honor accorded in Nationalist houses to pictures of Robert Emmet, and other leaders of revolt against British rule.

According to the Ulster leaders no agreement will ever be possible with the rest of Ireland which implies separation from the British Empire.

## GERMAN GIRLS ARE AFTER SINGLE MEN OF THIS COUNTRY

No excuse for the American bachelor—and furthermore their single blessedness is in danger. The German girls are after him. The latest German propaganda is an appeal by the German women—"Frauleins" for American men. The object is matrimony. The Yankee doughboy, who over in Germany is a rich man at \$36 a month, because of the exchange rates, is very much sought after by the women of the districts he is guarding.

An American ceases to be an enemy with the German women: instead he is a matrimonial prospect. The war which caused the death of 1,800,000 German men and youths has deprived the German women of an opportunity to find a husband. Matrimony has become a luxury in Germany, according to a letter to the Gazette from J. Stahl, Dulsburg, Germany.

In their distress German young ladies are looking over to America in the hopes of finding there the consummate happiness for which reason they appeal to all American bachelors, who are desirous to contract matrimony with a well bred young German lady, to approach them for a friendship with the intent of marriage," writes Stahl, who offers to be the international cupid. His address is Realchulstrasse 14, Dulsburg.

Therefore the American girl with her knee high skirt, and bobbed hair has to compete with the German "Maedchen" with her sabots, long wool skirts, and heavy stockings. And the French mamselle, she is saying nothing. Instead she dolls up in her one silks and satins and promenades down the boulevard and asks no odds as she rolls her eyes.

It is a 3 to 1 bet that the Yankee girl beats both of them in the matrimonial race.

Leo Murray, Marie Hall and Clyde Johnson motored to Edgerton Sunday and attended the ball game—Elmer Brunzell has returned from college for the summer vacation—Charles Blackman is assisting his family, who are moving—Mrs. F. L. Bullard and daughter, Isabel, called at the George Severson home Tuesday evening.

## GERMAN BUSINESS FEARS RUSS PACT

Industry and Press Skeptical  
Over Value of Trade Agreement.

Cologne, Germany.—German business interests and the German press are extremely skeptical about the value of the preliminary trade agreement entered into with the Russian government and frankly declare there is little reason to hope for immediate trade with Russia on any considerable scale.

The fact that the soviet republic still insists on monopolizing all import and export business and had the preliminary trade agreement written with that object in view confuses German business men, who profess to be unable to comprehend the document.

While the soviet republic takes to itself the rights and functions of a business corporation, it also holds the principle that a government cannot be used, but endeavors to reassure business men who desire to do business with it by including in the preliminary agreement a stipulation that dealings between the Russian government and German firms and individuals in Russia are to be controlled by an arbitration court.

In discussing the agreement the Cologne Gazette says:  
"This is the first step toward readjustment of business relations, the final step being still far in the future. Nevertheless, it is a step forward and others must necessarily follow. The new agreement means that the two business delegations in Moscow and Berlin—must be essentially enlarged and clothed with more authority. An urgent warning should be issued against false hopes of great commercial advantage."

"The German business men who put their faith in this agreement can have no guarantee of personal or property security. For the interpretation can be so distorted by the mental gymnasts of the red republic as to divert wholly its purpose. There is insufficient security offered for German life and property, which will in every instance be at the mercy of Bolshevik commissars."

# DEMPSEY-CARPENTIER

The Right Arm of Jack Dempsey

With this arm Dempsey has fought his way to the top round in fistic glory. It gave the knock-out blow that ended the career of Jess Willard and is ready for Monsieur Carpentier.

## Six Superb Articles

A masterful analysis, brilliantly written by a noted physician and author.

### Bought by the Gazette for This Territory

Dr. Brady's interest gripping articles differ from any material ever before published about prizefighters. No sport writer could ever aspire to write such material as this. No eye scientifically untrained, could hope to fathom such Secrets of Bone and Sinew, of Mind and Matter as this noted physician has here revealed.

surprising and underrated Carpentier, spread, metaphorically, before them. They learn the Strengths and Weaknesses which Both have; they'll know the spots vulnerable to a knock-out blow; they'll read how Nature has Protected or Exposed these Vulnerable Sports in each fighter with Bone or Muscle or Mind—Mind so quick in Reaction to fistic menace that it nullifies a knock-out blow by interposing—in a fraction of a second—a Shock absorber in the shape of a muscular arm or padded glove.

Georges Carpentier, who depends on his legs to keep him free from the terrible arm of Jack Dempsey.

## Science Speaks in These Articles

Contrary to popular belief Dr. Brady would not be greatly surprised if the ending of the Dempsey-Carpentier fight looks like this (Carpentier standing.) Why? The scientific reasons are given in his Great Series of Articles. Read them in the Gazette.

NOTE—Dr. William Brady conducts the "Personal Health" department for the Gazette every day and his writings have made his name familiar and his personality has been deeply impressed upon thousands of readers of the Gazette who have come to know and like him.
